

Sea-Change Liquid Kelp™

Cold-composted Australian Bull Kelp – high quality and extremely well priced.

Liquid Australian Bull Kelp (*Durvillea potatorum*), manufactured with a proprietary processing system. The 90-day cold-composting process retains all of the natural attributes of bull kelp, with none of the denaturing features inherent in some other manufacturing procedures that involve heat and alkaline extraction. The attributes include: minerals, amino acids, natural growth promotants, chelating agents and complex sugars. This product has been developed as part of an NTS quest to reduce the costs to the Australian farmer of the core components of biological agriculture. Kelp is without doubt an indispensable bio-stimulant in plant and animal health.

Benefits

- Biological Farmers of Australia (BFA) Registered Product 456AI.
- Kelp is a core component in biological agriculture. It is an indispensable bio-stimulant which can provide:
 - Frost resistance.
 - Bio-balancing.
 - Root promotion.
 - Improved flowering & fruit set.
 - Stress resistance.
 - A concentrated liquid blend of microbially digested bull kelp retaining all of the plant growth supporting capacity of this remarkable natural fertiliser.

PACKAGING

1 L, 5 L, 20 L, 200 L, 1000 L
Product Code: SCLK

Sea-Change Liquid Kelp™

Application Rates

Foliar:

Horticulture
3 – 7 L per ha
Broadacre
1 – 3 L per ha

Soil:

5 – 15 L per ha

Seed Treatment:

5 L per tonne of seed
Soak seedlings or planting material
in a 1:150 dilution

Typical Analysis w/v

Nitrogen (as organic N) 0.06 %
Phosphorus (as organic P) 0.02 %
Potassium (as organic K) 0.20 %
Calcium 2000 mg/L
Magnesium 1580 mg/L
Sulphur 1680 mg/L
Sodium 0.57 %
pH 3.5 – 5.5
Conductivity 69 mS/cm
Solubility: Miscible – some particles up to 150
microns

Appearance: Thick green/brown liquid

Miscellaneous

- No withholding period.
- Caution: Contains some larger particles (up to 150 micron) which may block fine spray nozzles.
- Some separation may occur over time.
- Agitate well during application to ensure solution is homogenous.

Caution Statement

Contains some larger particles (up to 150 micron) which may block fine spray nozzles. Some separation may occur over time. Agitate well during application to ensure solution is homogenous. A 50 micron version is available – Sea-Change Liquid Kelp Foliar™.
