

# Tonic-Tech™

Discover the benefits of herbal bio-balancing in the pursuit of an efficient, non-toxic strategy.

A revolutionary herbal tonic that promotes plant growth, supports the plant's natural immune system and improves overall plant health. This product could form part of a proactive crop management strategy.

## Benefits

- Biological Farmers of Australia (BFA) Registered Product 456AI.
- Tonic-Tech™ is the end product of over twenty years of research and trial work. This product has received several awards for the promotion of "clean, green agriculture" in China, where it was developed.
- Tonic-Tech™ involves the unique application of traditional Chinese herbal medicine to improve plant health.
- A fully organic product suitable for conventional or organic farming.
- Highlights the link between plant health and a reduced need for toxic chemicals.

# Tonic-Tech™

ALLOWED INPUT 456AI

**BFA  
REGISTERED  
PRODUCT**

## Application Rates

Horticulture: 250 mL/100 L of water (1:400).  
Repeat every 10 to 14 days or as required.  
Appropriate water rates vary according to the amount of foliage which should be wet to runoff.

Broadacre: 400 mL per 100 L of water (1:250).  
Try to apply a minimum of 200 L per ha to ensure adequate coverage. Apply as required.

**IMPORTANT:** Greatest efficacy of this fertiliser is achieved at pH 6 – 8.

**NOTE:** Do not apply in the 2 weeks prior to flowering or during flowering.

## Properties

pH: ..... 6 – 8  
Conductivity: ..... 14 mS/cm  
Solubility: ..... 100%  
Appearance: Dark brown liquid, strong odour

## Miscellaneous

- Note: Shake or stir well before use.
- Tonic-Tech™ is an organic product with a limited shelf-life. It has been stabilised to remain fully effective for up to 2 years.
- Thorough coverage is essential for maximum performance.
- Commonly used acidic insecticides and fungicides are compatible with Tonic-Tech™ but alkaline materials should not be mixed with Tonic-Tech™ as this will deactivate the product. JAR TESTS are always recommended for tank-mix compatibility.
- Safety Directions – may irritate the eyes and skin. Avoid contact with eyes and skin and open wounds. DO NOT inhale spray mist. Wear suitable protective clothing and wash hands, arms and face following use.
- Mixing – Fill spray tank 1/4 full of water with agitator operating. Slowly add the required amount of Tonic-Tech™ while continuing to fill the tank with water. Cloak™ Spray Oil is ideally suited as a wetter-sticker for this product. Continue agitation through the spray operation.

## Storage & Handling

**KEEP OUT OF REACH OF CHILDREN.** Store in the closed, original container in a dry, cool, well ventilated area out of direct sunlight. This organic product can be damaged by heat and should be protected at all times from high temperature. Rinse drums before disposal and dispense of empty drums at a local dump site. Empty containers should not be burnt.

Disclaimer: Any recommendations provided by Nutri-Tech Solutions Pty Ltd (NTS) or its Distributors are advice only. As no control can be exercised over storage, handling, mixing application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), no responsibility for, or liability for any failure in performance, losses, damages, or injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. NTS recommend you contact an Agronomist prior to product application. The buyer assumes all responsibility for the use of any NTS products.
